REPLY TO ATTENTION OF:

5HS-12

CID Landfill  
Attn: Mr. Bill Karpas  
138th St. and I-94  
Calumet City, IL. 60409

Dear Mr. Karpas:

This letter is in regard to Waste Profile Code WMA 110273. The crushed drums being sent as a special waste were inspected and sampled prior to crushing and contain no F,P, or U listed material, or any wastes regulated under TSCA. The drums have been crushed and placed in a 20 cubic yard roll off box and will be shipped with the waste described in profile WMA 120866. We appreciate your assistance in this matter.

Sincerely,

  
Steven J. Faryan, On-Scene  
Coordinator, U.S. EPA Region V

## CONTRACTOR'S DEFINITION OF SPECIAL WASTE

1. "Special Waste" means Type A or Type B Special wastes as defined below.

WMNA 116573  
WASTE PROFILE CODE

2. "Type A Special Waste" means any waste, from a commercial or industrial activity meeting any of the following descriptions.
- A containerized waste (e.g., a drum, portable tank, lugger box, roll-off box, pail, bulk tanker, etc.) listed in b.-g. below.
  - A waste containing free liquids.
  - A sludge waste.
  - A waste from an industrial process.
  - A waste from a pollution control process.
  - Residue and debris from the cleanup of a spill of a chemical substance or commercial product or a waste listed in a.-c. or g.
  - Contaminated residuals, or articles from the cleanup of a facility generating, storing, treating, recycling, or disposing of wastes listed in a.-f.

3. **Incidental Amounts of Special Waste**

The Contractor recognizes that many customers will produce some "Type B Special Waste," as defined below. Incidental quantities of "Type B Special Waste," do not require a Generator's Type B Special Waste Profile Sheet (Form WMNA-0089B) to be signed by the customer. However, the customer must identify the type and amount of Type B Special Wastes which will be provided to the Contractor in incidental amounts by completing the box in the lower right corner.

"Type B Special Waste" means any waste from a commercial or industrial activity meeting the descriptions which follow:

- Friable asbestos waste from building demolition or cleaning;** wall board, wall spray coverings, pipe insulation, etc. Nonfriable asbestos is not a special waste unless it has been processed, handled or used in such a way that asbestos fibers may be freely released. Asbestos-bearing industrial process waste is a "Type A Special Waste."
- Commercial products or chemicals which are off-specification, outdated, unused or banned.** Out-dated or off-specification, uncontaminated food or beverage products in original consumer containers are not included in this category, however, containers which once held commercial products or chemicals are included unless the container is empty. A container is empty when:  
All wastes have been removed that can be removed using the practices commonly employed to remove materials from the type of container, e.g., pouring, pumping or aspirating, and an end has been removed (for containers in excess of 25 gallons), and no more than 1 inch (2.54 centimeters) of residue remains on the bottom of the container or inner liner, or no more than 3% by weight of the total capacity of the container remains in the container (containers  $\leq$  110 gallons), or no more than 0.3% by weight of the total capacity of the container remains in the container (containers  $>$  110 gallons.) Containers which once held **ACUTELY HAZARDOUS WASTES** must be triple rinsed with an appropriate solvent or cleaned by an equivalent method. Containers which once held substances regulated under the Federal Insecticide, Fungicide, and Rodenticide Act must be empty according to label instructions or triple rinsed.
- Untreated bio-medical waste - Any waste capable of inducing infection due to contamination with infectious agents from a bio-medical source including but not limited to a medical practitioner, hospital, medical clinic, nursing home, university medical laboratory, mortuary, taxidermist, veterinarian, veterinary hospital or animal testing laboratory.** Sharps from these sources must be rendered harmless or placed in needle puncture proof containers. Residue from incineration of infectious wastes is a "Type A Special Waste."
- Treated bio-medical wastes - Any wastes from a bio-medical source including but not limited to a hospital, medical clinic, nursing home, medical practitioner, mortuary, taxidermist, veterinarian hospital, animal testing laboratory, or university medical laboratory which has been autoclaved or otherwise heat treated or sterilized so that it is no longer capable of inducing infection.** Any sharps from these sources must be rendered harmless or placed in needle puncture proof containers.
- Liquids and sludges from septic tanks, food service grease traps, or washwater and wastewaters from commercial laundries, laundromats and car washes unless these wastes are managed at commercial or public treatment works.**
- Chemical-containing equipment removed from service.** Examples: filters, cathode ray tubes, lab equipment, acetylene tanks, fluorescent light tubes, etc.
- Waste produced from the demolition or dismantling of industrial process equipment or facilities contaminated with chemicals from the industrial process.** Chemicals or wastes removed or drained from such equipment or facility are "Type A Special Wastes."

**CUSTOMER ACKNOWLEDGES THAT HE HAS READ THE FOREGOING DEFINITION AND HAS IDENTIFIED THE TYPES AND AMOUNTS OF ANY TYPE B WASTE STREAMS PRODUCED IN INCIDENTAL AMOUNTS.**

ILLINOIS SOLID WASTE MANAGEMENT ACT

GENERATOR DECLARATION

Waste Profile Sheet # WMA 110273

Waste Stream Name Crushed Drums

U.S.E.P.A. - Region II (Generator) does hereby declare and state that the waste that it generates in its operations that is disposed by Waste Management of Illinois, Inc., or one of its affiliated companies (Waste Management) is:

- ☒ Subject to the Illinois Solid Waste Management Act Fee; or
- ☐ Is exempt from the Illinois Solid Waste Management Act Fee because such waste is:
- ☐ (A) Hazardous Waste.
  - ☐ (B) Pollution Control Waste (as defined in the Solid Waste Management Act).
  - ☐ (C) Waste from recycling, reclamation or reuse processes (approved as being designed to render such wastes at least 50% reusable).
  - ☐ (D) Non-Hazardous solid waste composted or recycled at landfill (through a permitted process).
  - ☐ (E) Waste received at landfills accepting only demolition or construction debris or landscape waste.
  - ☐ (F) Waste granted a Specific Waste Exemption by Agency (attach response).

If you have checked Box B, please describe below the process which generates your pollution control waste.

---

---

The undersigned certifies on behalf of the Generator that this Declaration is true and correct as of the date hereof and that Waste Management will be notified in writing of any change in the status of the waste generated by Generator and disposed by Waste Management.

PESTICIDE/HERBICIDE  
Declaration Letter

Dear Customer:

This declaration letter provides us with information to make a determination on the analytical parameters to be run on your waste stream. If, to the best of your knowledge, that your waste stream may contain any of these parameters as listed below please make a notation on this form. If, to the best of your knowledge, your waste stream does not contain these parameters as listed below, please read and sign this form.

By signing this document, U.S.E.P.A. - Region II hereby certifies that  
(Generator's Name)

that the waste stream as described on Waste Management Generator's Waste Material

Profile Sheet # WMA 110273 **does not** contain the following

pesticides and herbicides: Endrin, Lindane, Methoxychlor, Toxaphene, 2, 4-D, 2, 4, 5-TP (Silvex), Chlordane and Heptachlor (and its hydroxide) unless clearly noted.

## E. CHEMICAL COMPOSITION

1.

RANGE  
MIN.-MAX.

2. Does this waste contain any of the following  
(provide concentration if known):

	-	%
Empty drums	99 - 99.5	%
Oil Residue	0 - 1	%
	-	%
	-	%
	-	%
	-	%
	-	%
	-	%
	-	%
	-	%
	-	%

	NO	or	LESS THAN	or	ACTUAL
PCB's	<input checked="" type="checkbox"/>		<input type="checkbox"/> <50 ppm		_____ ppm
Cyanides	<input checked="" type="checkbox"/>		<input type="checkbox"/> <50 ppm		_____ ppm
Sulfides	<input checked="" type="checkbox"/>		<input type="checkbox"/> <50 ppm		_____ ppm
Phenolics	<input checked="" type="checkbox"/>		<input type="checkbox"/> <50 ppm		_____ ppm

Please note: The chemical composition total in the maximum column must be greater than or equal to 100%.

Total: 100.5 %

## F. METALS

1. Does this waste contain any of the following metals (provide concentration if known):

Arsenic	<input type="checkbox"/> <5 or <u>N/A</u>	ppm	Barium	<input type="checkbox"/> <100 or <u>N/A</u>	ppm	Cadmium	<input type="checkbox"/> <1 or <u>N/A</u>	ppm
Chromium	<input type="checkbox"/> <5 or <u>N/A</u>	ppm	Lead	<input type="checkbox"/> <5 or <u>N/A</u>	ppm	Mercury	<input type="checkbox"/> <0.2 or <u>N/A</u>	ppm
Selenium	<input type="checkbox"/> <1 or <u>N/A</u>	ppm	Silver	<input type="checkbox"/> <5 or <u>N/A</u>	ppm	Copper	<input type="checkbox"/> <u>N/A</u>	ppm
Nickel	<input type="checkbox"/> <u>N/A</u>	ppm	Zinc	<input type="checkbox"/> <u>N/A</u>	ppm			ppm

2. Indicate method used to determine concentration (if provided):

☐ EP TOX

☐ TCLP, or

☐ Total

## G. GENERATOR CERTIFICATION

By signing this profile sheet, the generator certifies that unless clearly stated above or in attachments:

1. This waste is not a "Hazardous Waste" as defined by USEPA or Canadian Federal regulation and/or the state/province.
2. This waste does not contain regulated quantities of PCB's (Polychlorinated Biphenyls).
3. This sheet and its attachments contain true and accurate descriptions of the waste material. All relevant information regarding known or suspected hazards in the possession of the generator has been disclosed.
4. The Contractor's Definition of Special Waste (Form WMNA 0038 AD) has been read, signed and attached.
